BUYER'S GUIDE TO THE 2020 HYUNDAI SANTA FE

From epic road trips to everyday adventures with the family, the 2020 Hyundai Santa Fe delivers what you need to make a lifetime of memories.

Delivering confidence-instilling safety technology, you now can tackle your busy days with greater peace of mind. To make sure you never lose touch with what you love back home, the 2020 Santa Fe also equips its spacious cabin with some of the best technology on the market.

Ready to discover more? Let's get started by taking a closer look at the 2020 Hyundai Santa Fe from under the hood.

PERFORMANCE

Engine Power

Whether shuttling the kids between after-school activities or venturing down the steep mountain roads, the 2020 Santa Fe delivers a highly responsive and efficient ride.

To power this impressive piece of machinery, Hyundai equips its SE, SEL, and Limited trims with a 2.4L 4-cylinder engine. Producing up to 185 horsepower and 178 lb-ft of torque on command, it can go from neighborhood cruiser to highway conqueror in an instant.

Drivers craving an extra boost of power can upgrade to the Santa Fe SEL 2.0T and Limited 2.0T trims, which comes with a 2.0L Turbo engine that delivers a remarkable 235 horsepower. Whichever engine option you choose, each is mated to a smooth-shifting 8-speed automatic transmission.

When the road gets rough, you can continue traveling with ease thanks to the available HTRAC All Wheel Drive (AWD) system. As outside conditions change, the system individually adjusts the power sent to each wheel. The result is an SUV that maintains traction even during the harshest weather.

Fuel Economy & Towing Capacity

Sporting a massive 18.8-gallon fuel tank, the Santa Fe can start early and go all day long. Thanks to features like Idle Stop & Go, the 2020 Hyundai Santa Fe earns an EPA-estimated 22 city/29 highway MPG.*

With so many places you can go, you'll probably want to bring a few toys along for the ride. In this area, the Hyundai also has your back. When properly configured, the 2020 Santa Fe supplies a 3,500-pound max towing capacity.

EXTERIOR

Design & Color

When you attend a rock concert, the leading act doesn't just show up—they make a grand entrance. Well, the 2020 Santa Fe achieves this through its bold chrome front grille and chiseled frame.

Blending the elongated silhouette of a sport sedan with the athletic frame of a crossover, the Santa Fe appears to move gracefully along the roadway. The side roof rails run from the top of the front windshield to nearly the whole length of the cabin. This feature also helps further enhance its sweeping appearance.

To announce your entrance and departure, the Santa Fe is armed with brilliant LED headlights and taillights. Even when trekking through adverse weather, the SUV's fog lights cut through the mist to keep you moving forward.

Need to load up in a hurry? The Santa Fe provides a hands-free smart liftgate. No more fumbling for your keys while holding an arm full of grocery bags.

Through rain, snow, or the dark of night, you have plenty of dazzling color options sure to catch plenty of attention. Choose from:

- **Twilight Black**
- **Stormy Sea**
- **Lava Orange**
- **Earthy Bronze**
- **Machine Gray**
- **Symphony Silver**
- **Scarlet Red**
- **Quartz White Pearl**

Exterior Dimensions

From tight city streets to the wide-open highway, the 2020 Hyundai Santa Fe fits easily itself into almost any situation you put it in. Thanks to its wide opening doors and perfect seat height, climbing in and out is a breeze for even your smaller passengers.

Overall, this SUV offers the type of dimensions you can easily watch your family grow into:

Exterior	Measurement
Length	187.8 inches
Width (excludes mirrors)	74.4 inches
Height (with roof rack side rails)	67.1 inches
Wheelbase	108.9 inches

INTERIOR

Design & Space

Creating a space that rivals the comfort and convenience of home isn't easy—unless you're the 2020 Hyundai Santa Fe.

From the power-adjustable seating to the CleanAir Ionizer built into the available dual automatic temperature control, the cabin creates a serene environment from which to tackle your day.

The outside world can often be a noisy place. To help mitigate the cacophony of unwanted noise, the Santa Fe uses acoustic-laminated glass for both its front windshield and front side mirrors. Now, you can more easily enjoy the conversation happening inside without interruption.

To add a little extra natural glow to your morning commute, there's the available panoramic sunroof, which extends over the entire seating area. Once night returns, you and your family can bask in the relaxing glow of the cabin's LED interior lighting.

Seat Comfort

Digging deeper into your seating options, each of its five seats are ergonomically designed to take on long bouts of travel. The bottom cushions are even purposefully longer for better thigh support.

Drivers can opt for the extendable seat cushion and power lumbar support to help decrease fatigue. Those who add soothing heat and cooling ventilation will find themselves making a habit of taking the long way home.

Higher trims, like the Santa Fe Limited, even deliver heated rear seats so everyone can stay nice and toasty. All trims include rear seat air conditioning vents to maintain the perfect atmosphere throughout the cabin.

Interior Space & Cargo

Boasting 146.6 cubic feet of total interior volume, the 2020 Santa Fe isn't just big—it's downright expansive.

To help you make the most of this cavernous space, each trim comes with a reclining 60/40 split fold-flat second-row seat. When in the up position, you have a generous 35.9 cubic feet of cargo space. Press the button and watch as that space magically expands up to an incredible 71.3 cubic feet of cargo.

This abundant space especially comes in handy the next time you need to help a friend move into their new apartment or when you come across that perfect buffet table at the neighbor's yard sale.

For all the time in between, the Santa Fe allows everyone onboard to settle in and stretch out:

Interior	Measurement
Total Passenger Volume	110.7 cubic feet
Headroom (Front/Rear)	41.2 inches/39.2 inches
Legroom (Front/Rear)	44.1 inches/40.9 inches
Shoulder Room (Front/Rear)	59.1 inches/58.3 inches

INNOVATIVE TECHNOLOGY

Keeping You Connected on the Go

From the heart of the big city to the far edges of the mountains, you deserve an SUV that can keep you connected to everything you love back home. Fortunately for you, the 2020 Hyundai Santa Fe is considered one of the best-equipped SUVs in its class.

To help keep your hands and eyes away from your smartphone, the Santa offers Hyundai Blue Link® and the MyHyundai app. Using the voice command feature, you can lock and unlock the SUV, preset the cabin temperature, and even look up local restaurants, gas stations, and other points of interest.

Music, Navigation, & Apps

Want to quickly look up and stream your kid's new favorite song? Perhaps you need turn-by-turn directions to your next appointment? Looking for suggestions on the best burrito spot in a new town? Now you can easily handle all these tasks on the available 8-inch touchscreen display!

Sync all the most popular online services with the Santa Fe's easy-to-use dashboard display. You can even send and receive messages using the Bluetooth® hands-free phone system.

To hear your playlists and podcasts in crystal-clear sound, you'll be glad you opted for the Clari-Fi™ Music Restoration Technology. Featuring 12 speakers in 10 acoustically precise locations, it's like you're sitting center stage at your favorite band's concert.

Convenience Features

To keep you prepared for the journey ahead, the 2020 Hyundai Santa Fe outfits its cabin with technology that's typically reserved for the luxury class.

Does your smartphone need a quick charge? Place it onto the wireless device charging pad located inside the center console. You'll find multiple USB ports distributed throughout the cabin, so no one loses power.

Want to keep a close eye on your speed, fuel gauge, and directions? Opt for the available Heads-up Display. Fully customizable, you can now project important data directly to the interior windshield.

SAFETY

Sophisticated Systems to Keep You One Step Ahead

For years, the Hyundai Santa Fe has impressed drivers and experts with its cutting-edge safety tech. So, it's no surprise that the 2020 model year will be no different. To bolster its durable frame, this SUV also comes loaded with plenty of driver-assist features to keep you better aware of your surroundings.

Driver-Assist Technology

One of the most advanced suites of technologies at your disposal is Hyundai's SmartSense technologies.

For instance, to help keep you centered in your lane, the Santa Fe offers the Lane Keeping Assist feature. If you get too close to the vehicle ahead or you start to drift, audible and visual alerts will activate. In an emergency, this feature can even apply the brakes and adjust steering to help avoid a collision.

Additional Hyundai SmartSense technologies include:

- **Smart Cruise Control**
- **Driver Attention Warning**
- **Blind-Spot Collision Avoidance Assist**
- **Rear Cross-Traffic Collision-Avoidance Assist**
- **Forward Collision-Avoidance with Pedestrian Detection**

TEST DRIVE THE 2020 HYUNDAI SANTA FE

In this special eBook, you learned all about the Santa Fe's performance, exterior and interior design, and its wide-ranging list of technologies. Now, all that's left to do is to get behind the wheel and experience it for yourself!

To schedule your test drive, contact your local Hyundai dealer or go online to schedule a personal test drive today. Adventures await!
