## **BUYER'S GUIDE TO THE 2020 HYUNDAI PALISADE**

Are you looking for the perfect SUV? The SUV that's great for family vacations, commutes, and carpools alike? If so, the Hyundai Palisade is exactly what you're looking for. With this vehicle, you'll not only find spacious dimensions and high-performance capabilities, but you'll also find connective technology and dozens of safety features.

To help you learn more about the features offered with the Palisade, we've created this **Buyer's Guide to the 2020 Hyundai Palisade** eBook. In this eBook we'll cover topics like:

- Interior dimensions
- Performance capabilities
- Safety features
- Technology

Ready to learn more? Keep reading!

### **SPACIOUS INTERIOR DIMENSIONS**

When traveling around town in the 2020 Hyundai Palisade, not only will your whole family be able to join you for the ride, but the spacious dimensions allow everyone to sit just as comfortably as their neighbor. Capable of transporting up to eight passengers, the Palisade is perfect for family vacations and sports carpools alike.

However, if you want a little extra room for second-row passengers, you can opt for the available captain's chairs. Regardless of which second-row configuration you choose, everyone will sit relaxed thanks to these interior dimensions:

- **Headroom (first/second/third row):** 40.7/40.1/37.8 inches
- **Legroom (first/second/third row):** 44.1/42.4/31.4 inches
- **Shoulder room (first/second/third row):** 61.2/60.8/55.2 inches

In addition to a roomy cabin, with the Hyundai Palisade you'll also have ample cargo room for everything from vacation luggage to sports equipment and everything else in between. When your Palisade is full of passengers, you'll have 18 cubic feet of cargo capacity.

Need the maximum cargo capacity? Simply fold down the second and third rows of seats to have 86.4 cubic feet. Thanks to the several seating configuration options, you'll get the cargo capacity you need.

You can even fold down your third row for extra space with the simple press of a button thanks to the optional third row Power-folding Seats. Folding, unfolding, and reclining your passenger seats has never been easier thanks to this optional feature.

## PERFORMANCE CAPABILITIES

Thanks to the standard 3.8L engine, you'll find getting to your destination with all your favorite outdoor toys is possible. Capable of producing 291 horsepower and 262 lb-ft of torque, the 2020 Hyundai Palisade has a maximum towing capacity of 5,000 pounds when properly equipped.

This means that bringing a small boat, jet skis, or small trailer is possible to make your next family adventure that much more memorable and enjoyable.

Don't let rough terrain get in the way of you and your travels. The optional HTRAC All Wheel Drive (AWD) allows the power to be evenly distributed among front and rear wheels so you can feel more confident driving along low-traction terrain.

To make traveling on rough terrain even easier, the 2020 Palisade comes standard with the Drive Mode Select feature. This allows you to choose a drive mode to enhance your commute. Let's take a closer look at each of these drive modes and their features.

### Smart

Those who want a fully customized driving experience should select the Smart Drive Mode. This mode automatically adjusts all aspects of your Hyundai Palisade to your driving style.

### Sport

This drive mode automatically adjusts your throttle response and steering to create a more athletic feel when traveling around.

## Comfort

You'll feel right at home with a smoother ride thanks to this drive mode. This is possible by adjusting the engine, transmission, and other systems.

## Eco

Want to improve your EPA-estimated 19 city/24 highway MPG?\* You can enable this drive mode to optimize your fuel efficiency.

## Snow

Have particularly rough or slippery terrain up ahead? Turn on the Snow Drive Mode to boost your HTRAC AWD traction.

## 2020 HYUNDAI PALISADE SAFETY FEATURES

With the ability to bring your whole family along on your next adventure with the outdoor gear you love, Hyundai knows that you want to keep everyone as safe as possible. For that reason, the 2020 Hyundai Palisade offers several standard and available safety features.

To help you get a better idea of the ways each feature can help keep you safe we've broken down the features of each safety system. Let's take a closer look!

### Smart Cruise Control with Stop and Go (SCC)

This standard feature takes your cruise control feature and kicks it up a notch. Using intelligent front-facing technology, the Smart Cruise Control with Stop and Go system constantly monitors the front of your Palisade. When enabled, you'll travel at your set speed unless another vehicle is detected in your path.

Should this happen, the system can automatically slow your speed to maintain a safe traveling distance from the vehicle in front of you. If need be, your vehicle can even come to a complete stop. When it's safe to return to your cruise control speed, your vehicle will without the need to intervene.

### **Forward Collision-Avoidance Assist with Pedestrian Detection (FCA)**

Unexpected things happen. That's why the 2020 Palisade comes standard with Forward Collision-Avoidance Assist with Pedestrian Detection. This system uses front-facing cameras and sensors to constantly monitor what's happening ahead of you.

If the system detects a vehicle in its range, you'll receive an alert. If there's no intervention with this alert the system may step in and provide gentle brake pressure to completely avoid or reduce the severity of a collision. Taking this one step further, this system also comes equipped with Pedestrian Detection.

This feature helps keep you, your passengers, and everyone around you safe and secure from Point A to Point B.

### **Blind-Spot Collision-Avoidance Assist (BCA)**

The Blind-Spot Collision-Avoidance Assist feature comes standard with the SEL and Limited trim levels. You'll find that when your Palisade is equipped with this optional feature, you'll feel extra confident when changing lanes.

When your turn signal is on, the side-view-mounted camera shows you a live feed of your vehicle's blind spot on your driver instrument cluster. If you attempt to change lanes when an object is detected in your blind spot you'll receive a visual or audible alert.

### **Lane Keeping Assist (LKA)**

To help you stay on track when traveling you'll have the standard Lane Keeping Assist feature to thank. Using the lines of your marked lane, you'll be presented with a visual or audio alert if you start to drift from your lane without signaling to change lanes.

If there is no reaction to this alert the Lane Keeping Assist system may be able to provide gentle steering to help you safely return to your lane.

### **Driver Attention Warning (DAW)**

When your 2020 Palisade is equipped with the Driver Attention Warning it'll be like having your own personal co-pilot coaching you along your travels. The intelligent technology of the Hyundai Palisade will constantly monitor your driving and steering patterns.

If the system detects fatigue or inattention you'll receive an audible or visual alert to let you know that it's time to take a break from driving.

## **CONNECTIVE TECHNOLOGY**

As much fun as family trips can be, getting there can sometimes be an unmemorable part. However, when a 2020 Hyundai Palisade is helping you reach your destination you can rest assured that even your commute will be memorable. For this, you have Apple CarPlay® and Android Auto™ to thank.

You can seamlessly connect your smartphone to your Palisade to play your family's favorite songs through the available 12 strategically placed speakers of the Harman Kardon® premium audio system. Plus, with the Clari-Fi™ Music Restoration Technology offered with this premium system all your music will be concert quality.

After your rear passengers have tired themselves out by singing their favorite karaoke songs you can enable the optional Quiet Mode. This system mutes the rear speakers to help keep your sleeping passengers resting comfortably while you can still enjoy your favorite songs.

To ensure everyone is entertained along the way, the 2020 Palisade has several charging features. You'll find five USB ports—three in the front and two in the rear—standard with this SUV. For even more charging abilities you can opt for a third-row USB port and/or the wireless device charging system.

### **Blue Link®**

Even when you're not with your Hyundai Palisade you'll still be connected thanks to the available Blue Link® Connected Car System. This feature provides remote access to your Palisade right from your smartphone. Want your Palisade to have the perfect temperature before you arrive? Use your smartphone to remote start your vehicle and set your preferred temperature.

Did you think you forgot to lock the doors of your SUV? With the touch of a button you can remotely lock and unlock your doors. Other features of Blue Link® include:

- **Car Finder**
- **Automatic Emergency Assistance**
- **On-Demand Diagnostics**
- **And more!**

What makes the Blue Link® app that much better is that this remote access can happen on nearly any smart device. Use your home technology, like Amazon Alexa or Google Home, to access remote features. Have a smart watch? You can use that, too!

This way, you'll always know what's going on with your 2020 Palisade no matter where you are, no matter what technology you have.
