The most impressive Honda ever.

With a sophisticated exterior, luxurious interior and a turbocharged engine, the Accord has more advanced features than ever. It’s no wonder the fast, efficient and comfortable sedan was named the 2018 North American Car of the Year™.

- 252-hp, 2.0-liter, turbocharged and intercooled engine*
- 10-speed automatic transmission with paddle shifters*
- Honda Sensing® suite of safety and driver-assistive features
- LED headlights and fog lights*
- 19-inch alloy wheels*

*Available features. Please visit automobiles.honda.com/accord-sedan#specifications for actual trim application.
Sophistication and excitement await in the Accord’s luxurious interior. Enjoy high-quality, soft-touch materials, the latest technology and an expansive front view for an unmatched combination of elegance and convenience.

Step into pure comfort. Sophistication meets efficiency.

When our flagship sedan embraces innovative hybrid technology, you get an Accord that spends less time at the pump without sacrificing performance and comfort.

The Ultimate Enhanced Interior
- 450-watt premium audio system with 10 speakers*
- Mobile hotspot capability†
- Wireless phone charger™
- Apple CarPlay™ and Android Auto™ integration*
- Head-Up Display (HUD)*
- 8-inch Display Audio with high-resolution touch-screen*
- Driver’s seat with 12-way power adjustment†

†Available features. Please visit automobiles.honda.com/accord-sedan#specifications for actual trim application.

Hybrid Without Compromise
- 2.0-liter, 3rd-generation, two-motor hybrid powertrain
- 212 total system horsepower
- Honda Sensing® suite of safety and driver-assistive features
- Mobile hotspot capability†
- Wireless phone charger™
- Apple CarPlay™ and Android Auto™ integration*

†Available features. Please visit automobiles.honda.com/accord-sedan#specifications for actual trim application.

Confidence on the road.

Even the most attentive of drivers can miss things. That’s why Honda offers an array of safety and driver-assistive technologies designed to assist and help protect you and your passengers.

- Advanced Compatibility Engineering™ (ACE™) body structure
- Advanced driver and front passenger airbags
- Multi-angle rearview camera

The Honda Sensing® Suite.

A - Collision Mitigation Braking System™ (CMBS™)
CMBS can help bring your vehicle to a stop by automatically applying brake pressure when the system determines that a frontal collision is unavoidable.

B - Lane Keeping Assist System (LKAS)
With your hands on the steering wheel, long highway drives are easier with LKAS, which subtly adjusts steering to help keep your vehicle centered in a detected lane.

C - Road Departure Mitigation System (RDM)
RDM can determine if you cross over detected lanes without signaling, can provide steering assistance to help you return to your lane, or provide braking to help keep you from leaving the roadway entirely.

Adaptive Cruise Control (ACC)
ACC helps you maintain a set following interval behind detected vehicles for highway driving.
Road Departure Mitigation only alerts drivers when lane drift is detected without a turn signal in use and can apply mild steering torque to assist driver in maintaining proper lane position and/or brake forces. Driver remains responsible for safely operating vehicle and avoiding collisions.

ACC can detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed and other factors. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions.

Honda reminds you and your passengers to always use seat belts and appropriate child seats. Children 12 and under are safest when properly restrained in the rear seat. Specifications, features, illustrations and equipment shown in this brochure are based upon latest available information at the time of printing. Although descriptions are believed to be correct, accuracy cannot be guaranteed.

1 252 hp @ 6500 rpm (SAE net).
